Independence School District Volunteer Opportunity

We are hosting our annual Introduce a Girl to Engineering Night on January 18th from 6-8 at Van Horn this year. This event is open to any of our current 8thgrade girls. We are always looking for female engineers to come and help with this event. We will have some small group visits with our engineer volunteers and our young ladies that night as part of the event. During that time, we'd want them to share their brief story of how and why they chose engineering and then be able to answer some questions from the girls as well. They'd have about 10-15 minutes per small group x 4 times.
