Mocktails & Mingle: Engineering Innovation Through Research
Join SWE-KC as we present professionals in the area who are working on the "next big thing" in their field of engineering through research. Learn about the wide variety of research topics within engineering, as well as how our panelists chose to pursue their current careers.

As always, we will have light appetizers and mocktails for you to enjoy! Since we are in a public library, however, no alcohol is allowed at this event.

The event is free for SWE members (code will be sent to SWE paid members via email) and $10 for non-members.

Our awesome panelists include:
- Dr. Belinda Sturm, Professor of Environmental Engineering, University of Kansas.
- Fallon Fitzwater, Biomechanical Doctoral Candidate, Patent Engineer at Armstrong Teasdale
- Elizabeth Fitzgerald, Additive Manufacturing Research & Development, Honeywell
